

PRIORITY:	Normal
DATE:	June 21, 1999
TITLE:	Valid Adaptive signs for the Alpha Ethernet Adapter
ECO REFERENCE:	None
PRODUCT(S) AFFECTED:	Alpha Ethernet Adapter
SUMMARY:	The Alpha Ethernet Adapter works with these signs

The Alpha Ethernet Adapter does not have its own power supply. It receives its power from the sign with which it is associated. An Alpha Ethernet Adapter will not work if the sign does not have sufficient power for the Alpha Ethernet Adapter.

The Alpha Ethernet Adapter works with the following signs:

- 215C, 215R
- 300C series
- 4000C, 4000R series
- 7000C series
- Personal Priority Display (PPD)
- BetaBrite (P1026)

The Alpha Ethernet Adapter does not work with the following signs:

- 210C
- 220C
- AlphaVision
- BetaBrite (P1036)

NOTE: This tech memo applies to Adaptive's Alpha Ethernet Adapter. It does not apply to the Lantronix MSS1-T or MSS485.
