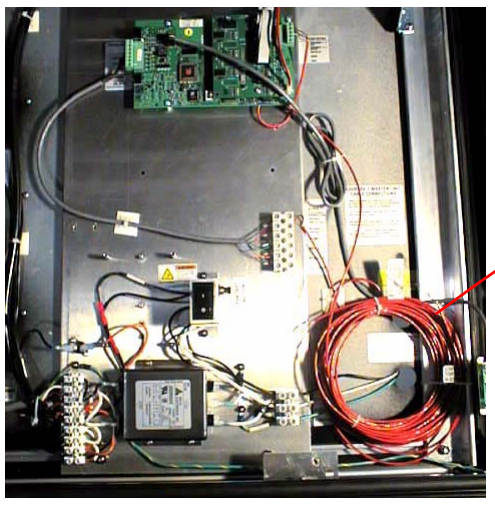
AlphaEclipse 2500/2600/3500 Signs
Multiple Master Configuration

http://www.adaptivedisplays.com/support/eclipse

1 **Locate the SERIAL ADDRESS label on the back of each sign.**
The SERIAL ADDRESS number will increase by one for each sign (1, 2, 3, and so on):

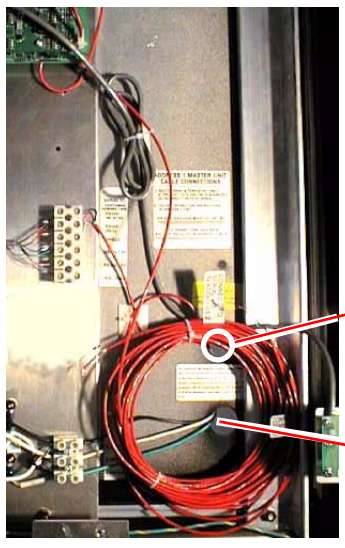
2 **Open the sign with SERIAL ADDRESS = 1.**
Locate the 30-foot Serial I/O cable in the lower left side of the sign.



Serial I/O cable

3 **Run the Serial I/O cable out through the sign's communications conduit opening.**
Then close the sign.

NOTE: Do *not* route the Serial I/O cable in the same conduit as the power wires.



Communications conduit opening

Power wires

4 **Open the sign labeled with SERIAL ADDRESS = 2.**
Using the communications conduit opening, run the Serial I/O cable between the two signs.

5 **Connect the signs as shown on the next page.**

6 **Repeat steps 3, 4, and 5 for each remaining sign.**

Connect the signs as shown below:
